

Easy Park Operating Instructions

Welcome to Easy Park, the complete parking system.

Before using the Easy Park, you must "load" it. See "Loading" the Easy Park below.

1. Operation

Press **ON**, the monitor shows the remaining parking fees appear in the display area.

2. Selecting the City Code

1. Make sure the Easy Card is turned on.
2. Press the **On** button again. The city code at the left of the display will blink. **A list of the city codes appear on the back of the Easy Park and on the Easy Park website (www.easypark.co.il).**

10 seconds after you have completed selecting the last button the card will automatically go into parking mode, the city code will appear on the monitor. If you made an error at any stage press **OFF** and start again from stage 1.

3. Use the Up and Down arrows   to scroll through the cities.

The Easy Park goes into “parking mode” automatically 10 seconds after the last press (of the button). The city code and the amount of time appear on the display. The card will emit a beep once a minute during parking mode.

Notes: Each city has a maximum parking time limit. At the end of maximum parking time, the card will switch off automatically. See stage 4.

Tel Aviv residents only: If you are a Tel Aviv resident, you can load a number of hours for *parking in Tel Aviv only*. To arrange, contact the Municipal Parking Authority at Tel Aviv City Hall.

Selecting the Zone/Discount Code

Some cities have a number of different parking zones or discount codes. If you are in a city where there are various zones, after selecting the city, you need to select the zone.

1. Make sure the Easy Card is turned on.
2. Press the On button again. The zone/discount code on the right of the display will blink.
3. Use the Up and Down arrows to scroll through the zones/discount codes.

The Easy Park goes into “parking mode” automatically 10 seconds after the last click. The card will emit a beep once a minute during parking mode. The city code and zone will appear on the display.

In case of a mistake at any stage, press the Off button and resume start over.

Example: Selecting the zone/discount code in Tel Aviv

1. Press the On button (to turn the Easy Park on).
2. Press the On button again. The city code on the left of the display will blink. Use the Up and Down arrows to scroll through the city codes to 03 (Tel Aviv).
3. Press the On button again. The zone/discount code on the right of the display will blink. Use the Up and Down arrows to scroll through the zones 03-2 for resident tag owners or 03-1 for others

Example: Parking in Jerusalem

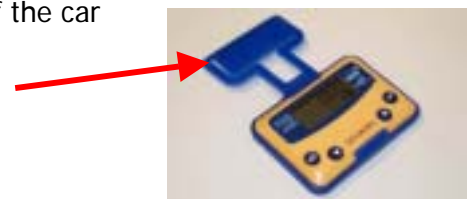

1. Press the On button (to turn the Easy Park on).
2. Press the On button again. The city code on the left of the display will blink. Use the Up and Down arrows to scroll through the city codes to 02 (Jerusalem).
3. Press the On button again. The zone/discount code on the right of the display will blink. Use the Up and Down arrows to scroll through the zones and time codes (2 hours: 02-2; 3 hours: 02-3; 4 hours 02-4).

Note: In Jerusalem, the maximum permissible parking time varies from zone to zone. Be sure to select the correct time code for the zone you are in.

Placing the Easy Park in the Vehicle

Use the plastic hanger to hang the Easy Park on the inside of the car door window. Make sure the front of the Easy Park is facing outward.

Plastic
hanger

Stopping the Parking Mode

To stop the parking mode, press the **OFF** button when you return to

the vehicle. The Easy Park will switch off and the parking operation will stop. You are debited for the exact amount of time you were parked.

Note: If the balance remaining in the card is insufficient, the missing amount will be added the next time the Easy Card is reloaded.

Displaying the Hourly Parking Rate

1. Make sure the Easy Park is turned **On**.
2. Click the **On** button again. The display shows the hourly parking rate in the selected parking zone.
3. Click the **On** button again to switch the Easy Park back to parking mode.

Hourly
parking rate

Selecting a Parking Amount Less Than the Maximum

The Easy Park display shows the maximum parking time permitted in the selected zone. The Easy Park will switch off automatically when it reaches the maximum permissible parking time.

1. Make sure the Easy Park is turned **On**.
2. Click the **On** button again.
3. Select the desired time using the Up and Down arrows to change the parking amount time.

It is only necessary to set a parking time when parking toward the end of the day. (During the morning and early afternoon there is no need to set a desired parking time.)

Example: If a parking fee must be paid till 19:00, and you begin parking at 18:00, the parking time should be set to 1:00. The Easy Park will switch off automatically at 19:00.

Reloading the Easy Park

The card can be reloaded at designated reloading stations: all Yellow convenience stores, selected post office branches, and other locations. (For a complete list, see www.easypark.co.il). Follow the instructions on the station screen. Payment for reloading the card can be with cash or credit card. Reloading amounts vary, as much or as little as required.

Amount of
money
remaining

At the end of the reloading transaction, you receive a printed receipt and a printout of the 20 most recent parking events.

Replacing the Battery

The Easy Park is powered by a regular 3.2V lithium battery (CR2032). The battery is included. Dispose of the used battery properly.

PLACEMENT OF THE CARD IN THE CAR

Hang the card in the windowpane that faces the sidewalk, using the attached hook, with the monitor facing outward. Please ensure that the card is on before you leave the car. During parking the card will beep every minute .

CARD FAILURE

In case of card failure call the customer service center 1700-700-789, or go to the customer service station nearest you. (For a complete list, see www.easypark.co.il).)

CARD LOADING AND PARKINGS PRINT OUT

The card is loaded with parking money at the service stations. After loading a receipt is printed which the amount and a printout of the last parking, which provide proof of parking. If you have received a parking ticket, yet you have correctly set the card, you must go immediately to the service station for a printout of your parking report .

If you have any questions about the Easy Park, contact our call center at 1.700.700.789.
